

**Do you really need a straw in your drink?**

**Every bit of plastic ever produced still exists today.** This plastic army is harming precious marine life – with straws and disposable cutlery among the top 10 items found in the Marine Conservation Society's beach cleans.

**Still need a straw in your drink? Join The Last Straw Challenge at [mcsuk.org](http://mcsuk.org)**

# Do you really need a straw in your drink?

**Every bit of plastic ever produced still exists today.**

This plastic is harming precious marine life – with straws and disposable cutlery among the top 10 items found in the Marine Conservation Society's beach cleans.
